

A garden is pure nature and yet needs power in several different places. With the PUKA MANA, you can flexibly access power to operate lawnmowers and other gardening tools or simply to charge your e-bike or smartphone. The multiple socket tower has two socket outlets and can be installed particularly easily using our multi-outdoor cable connectors. The sophisticated cable routing ensures a clean visual design.

Special features

- Cover can be completely closed with plugged-in angled plugs
- Total load max. 3680 W
- Easy to install thanks to IP68 cable connector
- Safe power distribution outdoors
