

## APG XT 8 L (785 841)

- Hervorragende Passform durch speziellen Handschuhschnitt
- Gute Feinfühligkeit durch weiches Leder an der Handschuhinnenseite
- Hoher Tragekomfort durch Einsatz von atmungsaktiven Materialien

Finden Sie die richtige Größe für den perfekten Sitz Ihrer persönlichen Schutzausrüstung DEHNcare.  
Find the right size to get the perfect fit with your DEHNcare personal protective equipment.

**Handschuh - Größe ermitteln (cm)**

Verwenden Sie ein Maßband, um den Handumfang an den Knöcheln (ohne Daumen) zu messen.  
Beitrag sollte geöffnet sein und die Finger zusammenlegen.

**Glove - Determine size (cm)**

Please use a tape measure to measure the circumference of your hand at the knuckles (without the thumb).  
Your hand should be open with the fingers together.

| DEHNcare APG XT - normale Stulpe (cm)<br>DEHNcare APG XT - normal gauntlet (cm)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | DEHNcare APG XT - lange Stulpe (cm)<br>DEHNcare APG XT - long gauntlet (cm) |     |     |     |     |     |     |    |                            |   |    |    |    |    |    |    |                            |     |     |     |     |     |     |     |                                |     |     |     |     |     |     |     |                                 |     |     |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |   |   |   |    |    |    |    |                            |   |    |    |    |    |    |    |                            |     |     |     |     |     |     |     |                                |     |     |     |     |     |     |     |                                 |     |     |     |     |     |     |     |
